

FREE SPRINKLER SYSTEM AUDIT

You and your HOA are eligible for a comprehensive sprinkler system audit — at no charge!

In partnership with Resource Central's **Slow the Flow** program, the Castle Pines North Metro District urges all homeowners and HOAs to register for a comprehensive irrigation-system audit.

We face another month (or two) of searing dry heat. In that context, please know our sprinkler-system audits often reveal costly water leaks, necessary sprinkler-head adjustments, and a host of other water-conservation opportunities.

FREQUENTLY ASKED QUESTIONS

WHAT TO KNOW BEFORE YOUR AUDIT

Q: When are audits available?

A: Audits take place M-F from 8:00am to 4:00pm by appointment only.

Q: How long does an audit last?

A: Depending on the size of a residential property, an audit can last 1-1.5 hours. Note: non-residential properties can take several days.

Q: Does someone have to be home?

A: Yes. An adult, 18 years or older, must be on the premises for the entire audit.

Q: Does my system have to be on?

A: Yes. You must have your system turned on before we arrive. We will not touch any valves or backflow preventers to start a system.

DURING YOUR AUDIT

Q: What does a sprinkler audit involve?

A: A Slow the Flow sprinkler audit includes:

- A visual inspection to pinpoint problems in your sprinkler system.
- Tests to measure precipitation rates—how much water is coming out of the sprinkler system.
- Tests to determine distribution uniformity—how evenly the water is covering the intended area.
- Soil sample to determine root depth and soil type.

Q: What safety precautions are you taking due to COVID-19?

A: Our technician will wear a mask and maintain at least 6 feet of social distance. They will also sanitize your control clock prior to using it, and after they are done. Only control clocks outside or in a garage are eligible.

Q: What happens after the audit?

A: You will receive a customized watering schedule as well as recommendations and tips to make your sprinkler system more effective and efficient.

Please register for your free sprinkler-system audit today at ResourceCentral.org/sprinklers or call (303) 999-3824.

Benefits of Your Audit

NO MORE WATER WASTE

Technicians can make adjustments to the sprinklers and schedule so no water is used where/when it shouldn't.

CUSTOM RESULTS

Several tests are performed at each residence resulting in specific recommendations for that system.

IMPROVED SYSTEM KNOWLEDGE

We aim to leave the customer with enough knowledge about their system that they can water with confidence!

INCREASED EFFICIENCY

Our watering schedules are based on science to get you the healthiest grass using the right amount of water.

SPRINKLER TIPS AND REMINDERS

Sign up for our bi-weekly Colorado Sprinkler Guide to keep updated on how often to water and seasonal tips.

97% OF FRONT RANGE RESIDENCES HAVE SPRINKLER INEFFICIENCIES

THAT'S NEARLY 27,000 SPRINKLER ISSUES IN A YEAR

ADDRESSING THESE HELPS SAVE 10 MILLION GALLONS OF WATER ANNUALLY
