

CASTLE PINES NORTH

METROPOLITAN DISTRICT

January 2022

The Water Quality Control Division (WQCD) of the Colorado Department of Public Health & Environment (CDPHE) notified the Castle Pines North Metro District (CPNMD) this month of three backflow prevention program violations, **all of which occurred in previous years** — namely, in 2018, 2019, and 2020.

For this most recent year, 2021, CPNMD's backflow prevention program was in full compliance.

We will include additional information on this topic in your February 2022 water bill. In the meantime, please direct questions to:
